

Rock pool sound picture

Sounds

Water - rub hands together throughout the 30 seconds and shake any water bottles with water in them.

Seaweed - wobble the pBuzz slide every time you pass some seaweed in the picture.

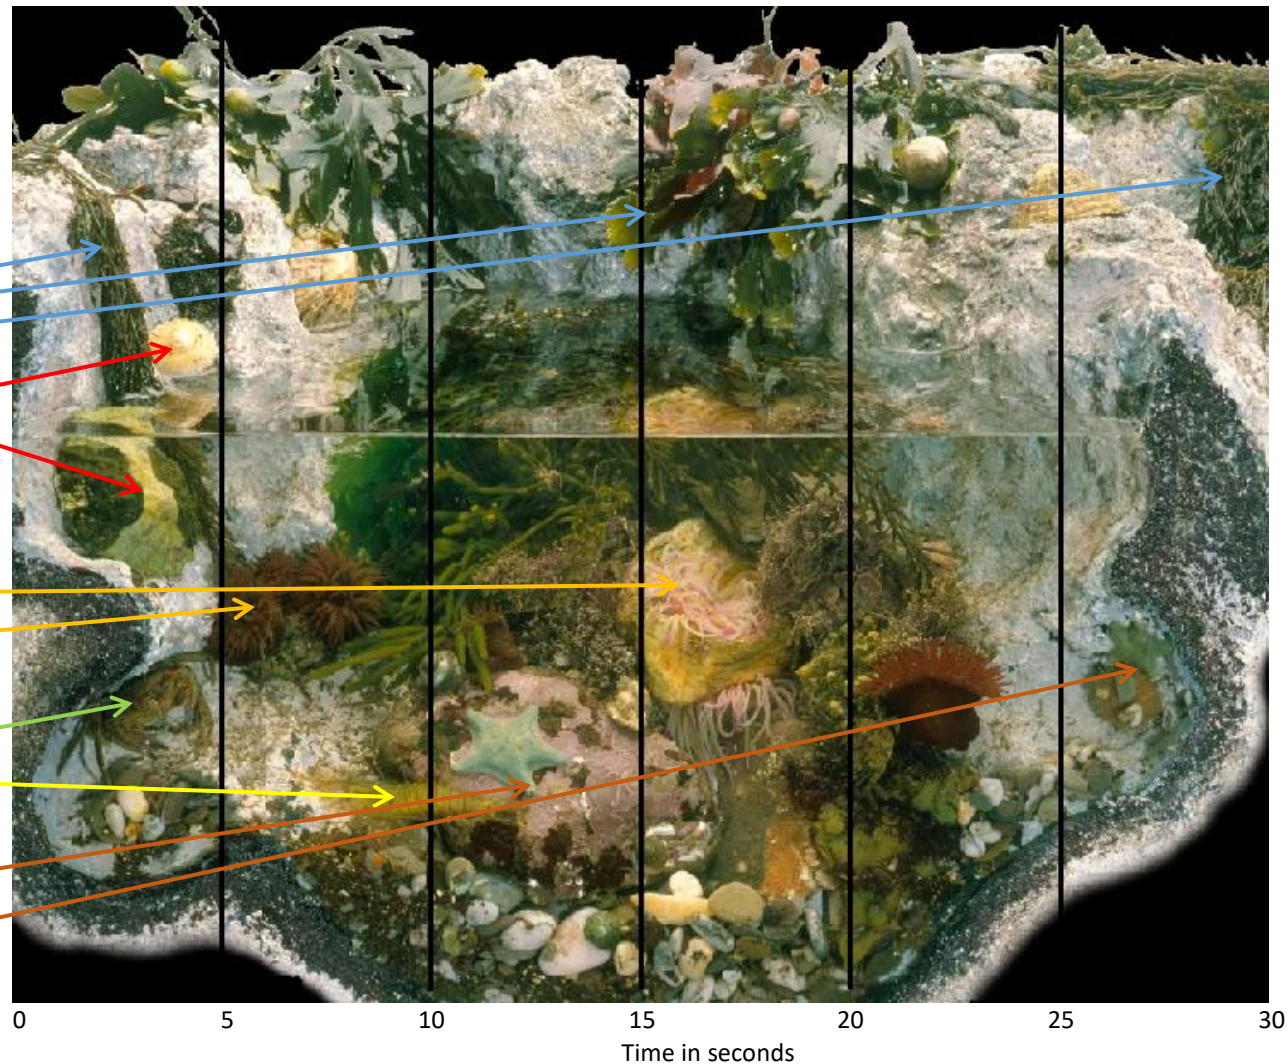

Limpet shells and stones - hit a ruler against the table, once for each shell, as you pass it. Shake a pencil case for the stones.

Sea anemones - wobble your tongue at the front of your mouth (lubba-lubba sounds) as you pass them.

Crab and shrimp - clap your hands or snap your fingers as you pass them.

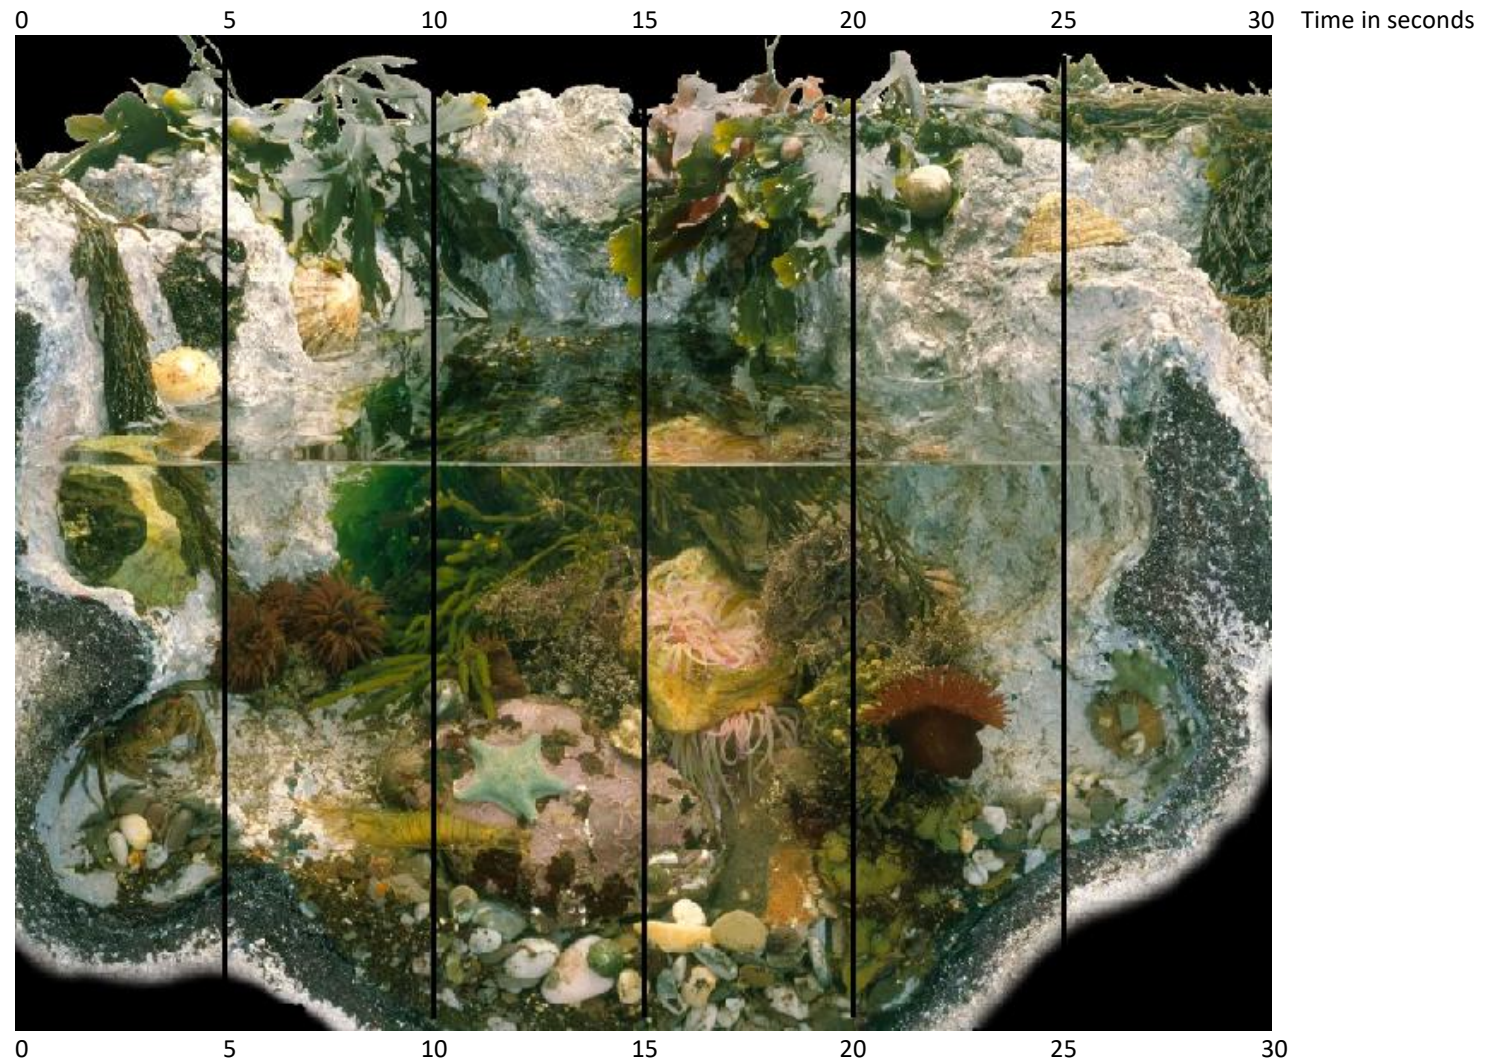

Starfish - Play pBuzz in pos. 1 like a fanfare (Tan-ta-ra!) as you pass it.

***These are only examples.
Can you find others?***

Rock pool sound picture

1. Either set a timer up to count seconds or use a ruler to show the passage across the rock pool picture.
2. Play each sound as the ruler passes it.
3. Practise each group in turn and then add them together.
4. Record the results!
5. Could you create your own rock pool picture and put music to it? Or maybe try another habitat?
